

Training Low Entry Kit

Volkswagen Crafter/ MAN TGE MY 2017>

Low Entry Kit

The Low Entry Kit for VW Crafter/ MAN TGE MY 2017> is a 100% ready to install solution. The kit requires sawing and assembly and has no need for welding. The kit is installed within 8-12 hours. Our Low Entry Kit is approved and certified by VW. To make certified adjustments to the vehicle you, as a dealer, need to complete the training Low Entry Kit conducted by Tribus.

Training program

The two-day training program is especially designed for workshop fitters that are going to convert the VW Crafter body or the MAN TGE with the Low Entry Kit. The program contains the full installation of the Low Entry Kit including the entry bars and the interior finish. Our trainers are certified experts in installing Low Entry Kit solutions. After completion of the training all participants receive a personal official certificate.

If all requirements are met, you can install the Low Entry Kit independently at your own workshop without losing OEM warranty.

The 7 training steps

1. DISASSEMBLY
2. MOUNTING DOOR EXTENSIONS
3. PREPARING BODYWORK
4. MOUNTING ENTRY STEPS
5. MOUNTING PILLAR EXTENSION
6. MOUNTING CABIN FLOOR
